# Breakout Run

Unexpected and fact-based: first sub-16 (boys) or sub-19 (girls) this season, a drop of 45+ seconds on a racing 5k, or (with --prev) a jump into the virtual top 50 from outside it.

|                                                   |                                                                                                                                                                                                                       |                                                  |                                                                                                                                                                                                                   |

## -Aura

Never an individual kid. Only weather, course, timing, or postponement facts already stored on the meet.

**Willard Early Bird** (Aug 25) — Boys HS times provisional (host said times ran fast / time corrections in process).

**Full field (every team, every runner) lives in [virtual\\_state\\_meet\\_2026-09-02.xlsx](#) — download placeholder; publish that workbook beside this file.**

**2026 season-best varsity 5k.** Standard XC scoring: five score, 6th and 7th displace. Unique athletes, fastest 5k. HS only — no middle school. Data as-of 2026-09-02 17:40 UTC. Results through 2026-08-29.

RUNNING AURA is editorial, 0–999, never negative, never an official ranking.  $\text{score} = 400 \times \text{virtual-place percentile} + 250 \times \min(1, \text{drop-seconds}/60) + 250 \times (\text{division-leader-time} / \text{this-time}) + 100$  if the season-best is from this week. Flames: 5 at 900+, 4 at 750+, 3 at 600+, 2 at 400+, else 1. Featured runners only.

186 HS schools with a 2026 5k have no OHSA I–IV assignment and are omitted (not guessed). Not an official OHSA result. Times, places, and meet notes are from the local database; nothing here was invented.
